FOR THE BENEFIT OF THE DOUBTING THE SUPERIORITY OF THE IDENTITY DISCIPLINE OF THE ELECTORATE IS THE ANSWER

The concept and nature of **our poverty is not understood by the President.** That is why he cannot effectively and efficiently deal with it. This is because his **aught Identity knowledge and discipline that would have driven him to be human focused, selfless and preparatory for accountability before Allah, is unconscious.**

Take electricity, it is an ineffective service by the provider and government organizations are complementing the corruption with generators or solar power, with our commonwealth. The sacred **setting** is the **separation of the distributors as distinct in the chain of power provision and a phony management structure.** From 1999 to date, no president has succeeded.

Take water supply, boreholes are increasing and water boards are closing down. This is along with taking loans.

Take Education, the absence of any **NATIONAL ORIENTATION** in the process now appears to be attended to by either having religious sponsored institutions or skills cum academic curricula oriented institutions. The rate of certification and volume of youths that are **schooled without education, is constantly on the increase.**

The bureaucratic process of the services is twisted for CORRUPTION AND SAFETY. Public works and procurements **are made to show records in the books, secure the future of accounting officers, aid key functionaries, private conduits and settle the political class that enabled the irrational appropriations.**

How can a society with a hopeless electricity service, health culture of water borne diseases, bankrupt in Identity consciousness and discipline, led by a corrupt system, **be able to achieve anything, without Reorientation for Transformation? What leader can do this?**

Indexes of per capital income, gross domestic product, improving rate of inflation, that surveys indicate, are **for that reason** not necessarily realistic.

What makes the opposition stand better? **Indeed, what can they do about it?**

A National Culture is not being consciously developed, by the services and the political class. Buhari made retirements to enable **his perceived loyalists to become hentchmen. Tinubu did it worse. He had to reverse on police officers' retirements and felt the concern of the same in the military.**

The DSS scrutiny of the safety of prospective appointees is inconsequential. Buhari admitted a kangaroo Committee that decides for his approvals, if any recommendations came from DSS. Tinubu uses it as it pleases him, if he refers to it in the first place.

A President does not feel **restrained, to respect the system, because there is no discipline driving both the members and the president. The president takes advantage of it.**

Who among the opposition does not know and cares so much as to mention it? **Indeed, what can they do differently?**

Both are more focused on being the chief spenders of the Nation and doing favours to allies, associates, lieutenants, aides, family and tribal members as well as the citizens who gave them the mandate.

The **electorate are asleep to the nature of their powers.** Whoever they elect will become. But **they need to vote ENOUGH. SO IF THEY VOTE LESS THAN THE MINIMUM REQUIREMENT AND SPREAD OR DECIDE NOT TO VOTE AT ALL, the rascality of producing political leaders and the stamping process of the electoral process will BE CHECKED. The immediate costs of running another process is more respectful to the electorate and more responsible for getting a good leadership and governance for this country.**

A more responsive party will **return to another convention if they sense that their garbage has no chance.** It is cheaper, more sensitive, more respectful and more responsible **for honour, than proceeding to general elections. Thus, it does not matter if the parties have already picked their flag bearers.**

The **electorate are asleep to the fact that it is suitable persons they have the responsibility of voting for, NOT PARTIES.** It is **the responsibility of the parties to present responsible candidates.**

In this way, parties will do their **utmost to attract disciplined members. And a party that gathers crooks will not need to be told that it is wasting its time.** No ambitious oppressor will be buying, luring or coercing **anybody to join him, knowing that the electorate is independent of any elected or appointed person.**

The **electorate are asleep to the overall and continuous implications of their exercised powers.**

There is **no way** they can for example positivity influence the determination of a suitable **chief of staff, that will not face some rascal creatures that will compel him to HAVE TO SMUGGLE HIS MEMOS TO THE PRESIDENT, if the electorate focuses on voting the idolized parties instead of persons of identity**

knowledge and discipline. They will also enable the possible appointment of persons with other political ambitions, with **coloured loyalty and commitment.**

The **voting of similar party members for the National Assembly or State Assemblies, EASES MORE CORRUPTION THAN SERVICE.** Dictation or sweeping stamping of submissions will be rampant. An animal as the head can even shamelessly affirm what is not strongly supported. It will be **most unlikely** and tolerable **if the party has a concentration of most disciplined persons.** The key is in the discipline of the electorate.

The failure of the discipline of the electorate is the **assurance of continuing on our present course.**

Majority of Nigerians are **either Muslims or Christians.** We have been majorly **responsible for the present conditions because of our ignorance, naivety, hypocrisy and indiscipline. We have the PRIMARY RESPONSIBILITY TO REVERSE THE SITUATION.**

It is therefore **meaningless** to thread **any path other than this, for clarity, action and fulfilment.**

As a result, only a RIGHT LEADERSHIP can BEGIN TO SOLVE ALL OUR PROBLEMS, WITH ATTENDANT PAINS. No one can make up these leaders except OURSELVES. And we do not need any RESOURCES other than READING THE BOOKS THAT ARE FREELY AVAILABLE ON THE DOWNLOAD PAGE OF www.sadtayyfoundation.org AND SHARING, TO ACT ON THEM.

The choice is ours. If we refuse to read, share and act, to reverse our conditions by generating the right leaders across the board, in the coming elections, **we will**

continue to pay increasing price for it. The foolish majority of seeming current beneficiaries of our mess, will get more insecure and become afraid of tomorrow, because their number will really continue shrinking.
